Furkan U

Project Concept

1

Player Control

You control a

ball

in this

perspective

game

where

mouse clicks

make the player

toss the basketball

2

Basic Gameplay

During the game,

new balls

appear

from

the bottom

and the goal of the game is to

toss as many basketballs as you can into the net In the allotted time.

3

Sound & Effects

There will be sound effects

when the ball changes its direction

and particle effects

when you pick up gems on the platforms

[optional] There will also be

4

Gameplay Mechanics

As the game progresses,

a timer will countdown

making it

more stressful for the player.

[optional] There will also be

5

User Interface

The

score

will

increase

whenever

a basketball gets tossed into the net

At the start of the game, the title

Toss A Ball

will appear

and the game will end when

the allotted time has passed

6

Other Features

There will be the main menu and a restart game menu.
